Good afternoon Talmey community/families,

Welcome to 2022!

I am writing to share some details with you about how we are preparing to welcome all students back to school on Monday, January 10. As you know, the Richmond School District has worked closely with public health officials and has carefully followed their guidance throughout the pandemic. The health, safety and well-being of students, you as families, and staff remains our top priority. Within our district, we have implemented health and safety measures as advised by public health, and carefully followed the [Communicable Disease Prevention Plan](#) to reduce the risk of COVID transmission in schools.

A few of these measures include:

- Encouraged all eligible members of our community to become vaccinated against COVID-19

- Reminded staff and students to conduct daily self-health checks and to stay home if ill
- Provided a supply of 3 layer disposable masks for staff and students to access
- Updated and modified [ventilation systems](#) to upgrade filters and maximize air exchange

- Ensured frequent and regular cleaning including daily cleaning of high touch surfaces
- Limited visitor access to schools
- Shared information with students and staff in our school about hand and respiratory hygiene, proper mask use and spacing out as much as possible.
- Installed portable handwashing sinks in classrooms without sinks, and hand sanitizing stations

This past week staff at our school have taken time to review our health and safety measures and I want to highlight some key items for you as we prepare for Monday:

- **Entry and exit to the building will continue to use classroom exterior doors**
- **Movement in hallways and between classes will be limited and in one direction**
- **Remember that students will be outside for recess/lunch and need the appropriate clothes for the weather**

Possible Closure of Schools:

The school and the district will be monitoring student and staff absences on a daily basis and responding quickly if we see numbers of absences due to illness rising significantly. It is possible that at some point, a school may need to temporarily close because of the impacts of the Omicron variant. This could occur for one of two reasons:

- A 'health closure' of the school would be determined by public health officials because of the number of staff and students who have tested positive with COVID-19.

- A 'functional closure' of the school would occur if there is a shortage of available staff and we are unable to keep the school open for in-person learning and safely supervise students.

As each case would be handled individually, it is not possible to predict exactly how long a temporary closure would be in effect, however it is estimated that most closures would be for approximately seven days. A number of factors would need to be taken into consideration in determining the length of a closure. What we do know is while we hope that there will not be a need for a temporary closure, we will work hard to ensure we support everyone who is impacted during such a time.

This week, staff spent time planning how to respond should the school need to temporarily close in the coming weeks. In the event of a closure, we will notify families as soon as possible. During a functional closure, we will shift to providing remote learning opportunities for students to ensure continuity of learning and course completion. We also hope to be able to continue to provide in-person support during a functional closure for students with additional needs, such as students with special needs and children of essential workers. This will be dependent on the availability of staff and will be determined and communicated at the time of closure.

We know these days are challenging and uncertain in many ways. You can continue to count on us to keep you informed and do everything we can to meet students' needs. If you have any questions, please do not hesitate to contact me. We look forward to welcoming your children back to Talmey as we navigate the upcoming weeks together.

Sincerely,
Al Zarchikoff
Principal
